Membership knowledge and learning exchange workshop 2015

Title: Advantages and disadvantages of different models of Housing with Care schemes for people living with dementia.

Organiser: Housing and Dementia Research Consortium.

Description: One of the outcomes of the 2014 HDRC workshop was a list of the consortium's priority research themes. The top priority theme was: the advantages and disadvantages of different models of Housing with Care schemes for people living with dementia. Research evidence on this theme is currently limited.

In this 2015 workshop we aim to share knowledge and learning relating to this theme and increase understanding among members. Key priorities for the workshop are the sharing and understanding of the outcomes of different scheme models from around the world for people living with dementia and the development of a set of pros and cons for different models, based on the participants’ experience and observation. The output from the workshop would then form the basis of a proposal for a research project to explore the theme more extensively.

Date: 16th June 2015

Venue: Worcester University: Cotswold Suite, 1st Floor, Edward Elgar Building, St Johns Campus.
Directions and maps: http://www.worcester.ac.uk/discover/find-us-st-johns-campus.html

Programme

10.00 Registration and refreshments

10.30 Chair (Simon Evans) and Dawn Brooker welcome – Association for dementia Studies, HDRC hosting organisation

10.50 The HDRC's top research priority – Julie Barrett, HDRC Research Coordinator

11.00 Do we know what works when caring for people living with dementia in Extra Care housing? – Vanessa Pritchard-Wilkes, Housing&Care21

11.30 Break, refreshments and networking

12.50 Deprivation of liberty – implications for different HWC models – Sue Garwood, Housing LIN Dementia Lead

13.10 Lunch and networking

14.00 Group work – advantages and disadvantages of the different models

– led by Julie Barrett

15.00 Feedback from the groups – led by Julie Barrett

15.20 Closing remarks – Simon Evans

15.30 Close of workshop.
